

SOCKS BAND LABEL CLASSIC

Pink line: cutting line, the background must go beyond this line and reach the edge of the template.

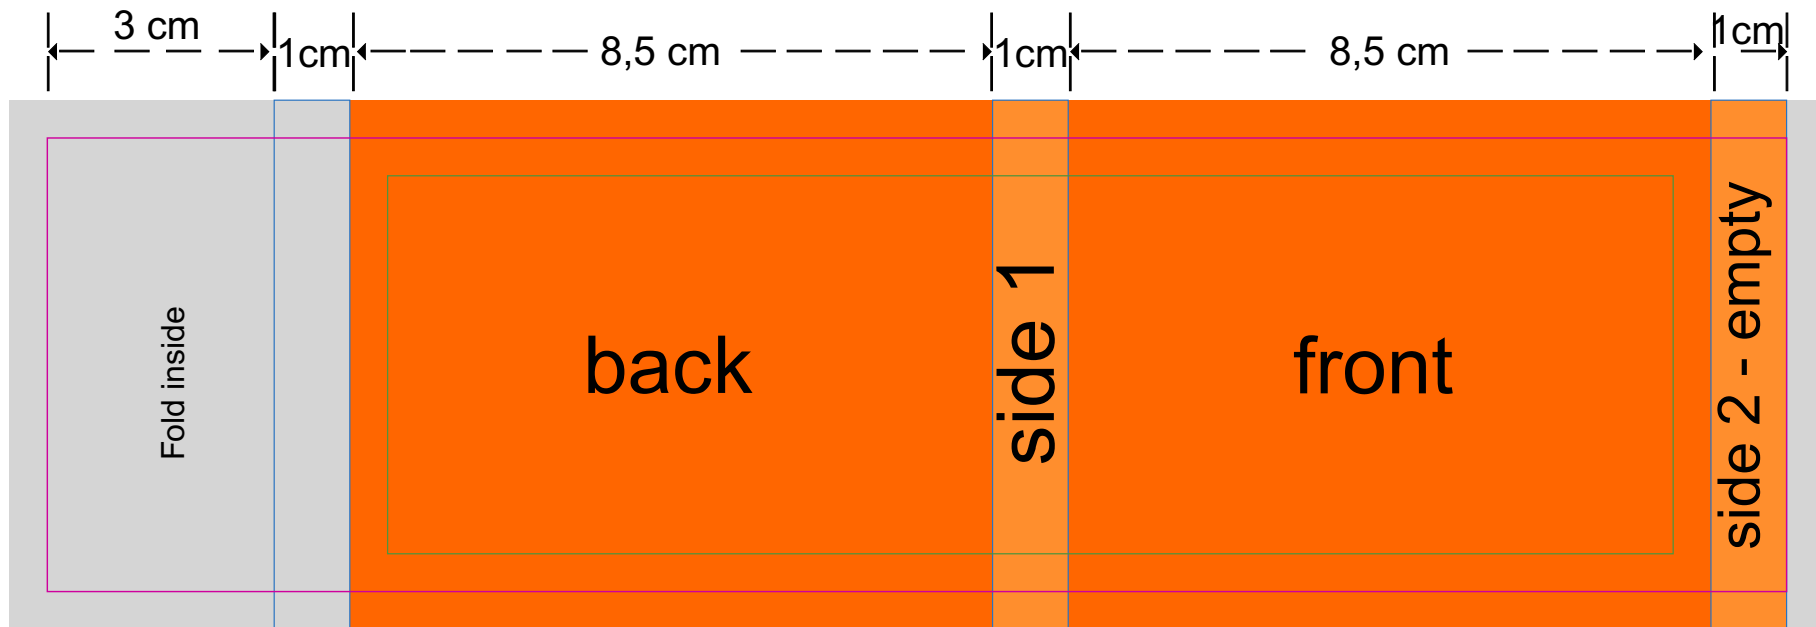

Green line: important texts and graphics that are not the background cannot protrude behind this line. This is the safety zone.

Blue lines: the spine of the label, we suggest putting there some small texts like website, size or slogan.

Grey rectangle: shows full dimensions of project, can be deleted, graphics for background should fit in or protrude over this rectangle.

Orange rectangles: shows full place for front and back, lighter orange for sides, can be deleted, those are here only to help with alignment.

Fold inside: please leave this space empty without anything except background, it will be glued to side 2 from inside.

Template dimensions:

- Full project: 240x70mm
- After cutting: 230x60mm

Please do not:

- Make your project with bleed or margin. Simply make one file with full project dimensions.
- Put any printing marks.
- Delete guide lines.

Please do:

- Remember to change all texts to curves to avoid problem with missing fonts.
- If you want sizes on label please make many sizes and put them as separate layers to avoid problem with missing sizes.
- Save your file as vector file. Best file will be PDF.
- Use vector graphics in your project. Try to avoid rasterised graphics.
- Make your project as new layers and save file in project dimensions or as this template A4 dimensions.
